JOINT STATUS REPORT

The parties, through counsel hereby submit this report on the status of discovery and related issues:

In furtherance of Petitioner's pending discovery request that the Court order disclosure of the prosecutors' jury selection notes in cases other than Mr. Roney's, Petitioner hereby reports to the Court with the attached list of cases tried to a jury by ADA Roger King (Attachment "A"). Of the cases listed, Petitioner has to date identified approximately twenty in which a *Batson* or *Batson*-related issue was raised at some stage of litigation; more than twenty in which jury voir dire notes of testimony have been located and are available; more than thirty in which he has obtained copies of the computer generated jury panel lists; more than thirty-five in which he has obtained copies of the Jury Voir Dire Sheets (the court crier's contemporaneous account of the jury selection process); and four cases in which has obtained copies of the sitting jurors' Questionnaires (containing, inter alia, jurors' self-report of race and gender).

Petitioner has also identified many more cases tried by Mr. King in which the jury voir dire transcripts either have been transcribed or likely have been transcribed, and Petitioner continues efforts to locate those transcripts as well as other jury selection materials. Petitioner has outstanding requests with the Philadelphia Clerk of Courts to review relevant files. Due to their age, some files are in the court's offsite storage; operational delays due to the coronavirus pandemic will require another 30 days before the clerk is able to make them available for review. In addition, the parties expect that some notes of testimony still may be located in the District Attorney's Office's internal databases. The District Attorney's Office has not yet completed that search. Group A of Attachment "A" also identifies twenty defendants who were prosecuted by Mr. King before a jury between 1991 and the close of 1996. In some instances, there were multiple trials and juries, for which notes of testimony are available.

In February 2021, counsel for Respondents, Max Kaufman, resigned from his position at the District Attorney's Office. On March 11, 2021, undersigned counsel, Matthew Stiegler, entered his appearance as counsel for Respondents and promptly reached out to counsel for Petitioner.

Considering new counsel's need to adequately familiarize himself with the case, the parties agreed that Respondent's prioritize their internal data systems search for jury selection transcripts from cases for which Petitioner has already obtained other jury selection related materials, but not the notes of testimony. Counsel for Respondents is now conducting this search, and will expand it to include the remaining cases as soon as the more targeted search is completed. Considering the complexity of this case, Mr. Stiegler anticipates needing 30-60 days to complete those internal searches.

We are attaching here as well the list of cases tried by Assistant District Attorney Paul Riley, which has previously been submitted to this Court. *See Attachment "B".*

The parties will continue to compile information relevant to the listed cases. The parties of course are available for a status conference, if the Court wishes, at the court's convenience.

Respectfully submitted,
